

### Questions You Can Expect The Judge To Ask

1. Why did you decide on this topic?
2. What is the purpose of this project?
3. What was your hypothesis?
4. What variable did you change?
5. For each value of the variable that you changed (the independent/manipulated variable), how many trials did you do?
6. What response did you observe or measure?
7. How did you control the experiment?
8. What procedures did you follow?
9. In your experiment, what was the control? Against what sample did you compare others?
10. Explain your data/table/graph.
11. What conclusion did you draw?
12. How did your results relate to your original hypothesis?
13. If you had a mentor, in what ways did your mentor assist you?
14. In doing your research, what related information did you find that was helpful to you in conducting your project?
15. What would you do differently if you were to do this project again?
16. Did you do a similar project last year? How is this project different from last year's project?
